

CRD VI at Ashurst – Key Contacts

Ashurst

Our people are our greatest asset and we bring together lawyers of the highest calibre who have the technical knowledge, industry experience and regional know-how to provide the incisive advice clients need.

Through our offices around the world, we offer the reach and insight of a global network, combined with the knowledge and understanding of local markets. With 450 partners and a further 1,800 plus lawyers working across 11 different time zones, we are able to respond to clients wherever and whenever required. As a global team, we have a reputation for successfully managing large and complex multi-jurisdictional transactions, disputes and projects and delivering outstanding outcomes for clients.

In addition to our office locations we also act internationally through our established trusted relationships with local law firms. Our approach is to identify the best independent law firms in the region and to develop and nurture those relationships over time so that our clients benefit from the ‘right’ local counsel advice and receive a high-level integrated service.
